## EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

## In the Specification:

The Amendments dated February 1, 2005 to the Specification and Abstract have not been entered.

On page 2, line 1, "Title of the Invention" has been deleted.

On page 3, line 9, "ultra violet" has been changed to -- ultra-violet --.

On page 3, line 9, "disinfections" has been changed to -- disinfection --.

On page 5, line 2, "wind mills" has been changed to -- windmills --.

On page 5, line 5, "refereed" has been changed to -- referred --.

On page 5, line 9, "turbines" has been changed to -- turbine --

On page 5, line 19, "s-shaped" has been changed to -- S-shaped --.

On page 7, line 8, "close" has been changed to -- closed --.

On page 9, line 1, "Objections" has been changed to -- Objects --.

On page 9, last line, "nose" has been changed to -- noise --.

On page 13, line 16, "s-shaped" has been changed to -- S-shaped --. On page 13, line 20, "s-shape" has been changed to -- S-shape --. On page 14, line 12, "s-shape" has been changed to -- S-shaped --. On page 15, line 4, "breaking" has been changed to -- braking --On page 15, line 4, "break" has been changed to -- brake --. On page 15, line 5, "break" has been changed to -- brake --. On page 16, line 10, "s-shape" has been changed to -- S-shape --. On page 16, line 18, "s-shape" has been changed to -- S-shape --. On page 17, line 5, "s-shaped" has been changed to -- S-shaped --. On page 17, line 7, "rotors' " has been changed to -- rotor's --. On page 17, line 12, "rotors" has been changed to -- rotor's --. On page 18, line 2, "rotors' " has been changed to -- rotor's --. On page 20, line 9, "wind mill" has been changed to -- windmill --. On page 24, line 5, "s-shaped" has been changed to -- S-shaped --. On page 24, line 7, "s-shaped" has been changed to -- S-shaped --. On page 24, line 9, "cups" has been changed to -- cup --.

On page 24, line 9, "breaking" has been changed to -- braking --

The Amendments dated February 1, 2005 to the Specification and Abstract have not been entered because they do not comply with 37 C.F.R. 1.121, in that they do not include sequential paragraph numbering and the full text of the paragraphs to be replaced. The amendments to the

Application/Control Number: 10/644,541 Art Unit: 3745

specification have been made by the examiner in order to incorporate Applicant's intended amendment into the specification.

## Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The instant application is directed towards an unobvious improvement over the combination of U.S. Patent 4,718,822 and 4,004,861. The combination of U.S. Patent 4,718,822 and U.S. Patent 4,004,861 shows a self-regulating rotor substantially as claimed as set forth in the previous Office action, including cups 48 having cup shafts 12 attached to the rotor. The improvement comprises a clutch system attached to the rotor, with the clutch system comprising pulleys connected to the cup shafts, with the clutch system using the rotational energy of the rotating rotor to close the rotor cups into the closed position. In U.S. Patent 4,718,822, springs 66 use the rotational energy of the rotating rotor when it is slowing down to close the cups into a closed shape. It would not be obvious to a person having ordinary skill in the art to substitute pulleys connected to the cup shafts, because this would destroy the operability of the rotor blade closing arrangement. Additionally, Applicant's argument filed February 1, 2005 (see page 22, paragraph 2) that U.S. Patent 4,718,822 does not disclose a clutch system attached to the rotor, with the clutch system comprising pulleys connected to the cup shafts, with the clutch system using the rotational energy of the rotating rotor to close the rotor cups into the closed position is persuasive.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christopher Verdier whose telephone number is (571) 272-4824. The examiner can normally be reached on Monday-Friday from 10:00-6:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Edward K. Look can be reached on (571) 272-4820. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
